Dear Colleagues,

On behalf of the Turkish Spine Society, we cordially invite you to participate in the 10th International Turkish Spine Congress, which is scheduled to take place in the world famous Cappadocia region of Turkey, on April 17-20, 2013. The meeting will offer a rich scientific programme in collaboration with Scoliosis Research Society.

Cappadocia is an ideal venue to have this meeting because of its natural beauty and cultural splendor. This attractive region contains several underground cities and caves largely used by early Christians as hiding places before they became an accepted religion. The rocks of Cappadocia eroded into hundreds of spectacular pillars that are called “fairy chimneys”.

We hope that the unique region of Cappadocia will provide a memorable setting for a rewarding scientific experience.

Necdet Altun, MD
Co-Chair of Congress
Professor of Orthopaedics and Traumatology

Şükrü Çağlar, MD
Co-Chair of Congress
Professor of Neurosurgery
